Service offering

MANAGED SERVICES

Our highly skilled and experienced team will take away the complexity of managing your own internal IT and give you peace of mind. We leave you to concentrate on running your business while we manage your infrastructure.

TAILOR-MADE SOLUTIONS

We evaluate your business and technology needs and then advise on the best solution for your current and future needs.

RESOURCE MANAGEMENT AND RECRUITMENT

Let us assume ownership of the design and management of your IT recruitment process.

IT HARDWARE AND SOFTWARE SALES

By partnering with leading distributors and brands, Inanda technologies offers the lowest pricing on all Hardware and Software sales.

AUDIO VISUAL SOLUTIONS

Inanda Technologies specialises mainly in the realisation of dynamic as well as complex AV & ICT solutions, conference systems and digital signage solutions (narrowcasting), combined with a well thought-out programme of technical services. Furthermore, we have a high reputation to maintain in the area of Event Rental and Digital productions.

ICT INFRASTRUCTURE AND SECURITY

Inanda Technologies offer a range of technologies to assist organisations in running efficiently. These services include Data Networking / Server room Solutions / Structured Data Cabling / Data Cabinets / UPS Solutions / IP Telephony / Access Control systems / Time Management Solutions / Entrance Control / Metal Detectors & CCTV.

PRINTING SOLUTIONS

Our approach is a multi-brand, multi-technology approach. Not being limited to one specific brand or technology, we can offer a range of devices that offer a perfect fit to your requirements.
